

DAWN BUCKINGHAM
STATE SENATOR

Statement on Senate Joint Resolution 10 (SJR10)

I oppose the state passing on new requirements to local governments without providing necessary funding. That is why I supported an effort to prohibit this practice during the 2017 regular session, why I filed SJR 8 in the 2017 special session, and why I have filed SJR 10 for the 2019 session.

In January 2018, Governor Abbott added his voice to this conversation when he released his property tax policy which includes as one of its primary components prohibiting the legislature from imposing unfunded mandates on its political subdivisions.
